**Military Veterans
Emphasis Committee**

Description

The MVEC serves as an internal consultant to BIG and promotes the use of the Veteran Administration and community programs, benefits and services for BIG military veterans and their family members. In addition, MVEC makes recommendations to the National Executive Committee that will better serve military veterans and their families.

The MVEC's objectives are to identify and eliminate barriers encountered by military veterans and their families when receiving resources, products and services from local and national entities.

The MVEC's objectives are to identify and eliminate barriers encountered by military veterans and their families when receiving resources, products and services from local and national entities.

The Military Veterans Emphasis Committee (MVEC) was formed in 2015 and implemented in 2016 in order to support and address the needs

of BIG's military/veterans and their families. The MVEC serves as strategic thinkers, pacesetters, and game changers for the men and women who served their country as well as their spouses who helped make military life a success for our Servicemen! MVEC focuses on offering military veterans and their families oriented resources and information provided by local and national government/commercial/private organizations to BIG military/veterans and their families.
